Credit Union Difference

Just what makes a credit union so different from a bank?

A credit union is a non-profit organization, which exists for the benefit of its members. Each member has a say in how the credit union is run. Profits are given back to members in the form of higher dividends on share accounts like checking and savings, better rates on loans, and lower fees. We offer the complete range of financial products—from checking and savings to lending products like home loans, vehicle loans, signature loans and Visa credit cards.

Amazing Services

La Cap gives back to its members in other ways too. Members enjoy free financial education, value-added services like automotive extended warranty, and optional insurance products.

Financial Education

La Cap members have access to free financial education through Knowledge of Financial Education (KOFÉ). You can talk to a financial coach, take interactive courses, or read up on financial topics. KOFÉ will help you improve your financial well-being on your own schedule.

Value-added services

Whether you're buying a house or opening a checking account, value-added services can enhance La Cap's already great products. For example, each member can get \$1000 of Accidental Death & Dismemberment insurance coverage, paid for by La Cap and provided by TruStage Insurance Company.*

* TruStage™ AD&D Insurance is offered by TruStage Insurance Agency, LLC and underwritten by CMFG Life Insurance Company. The insurance offered is not a deposit and is not federally insured or guaranteed by your credit union.
